## **BUGSY MALONE : THE STORY**

To quote the author, Alan Parker, when he was trying to sell his ideas for Buggy to a film company: "It's a sort of take-off of all the old gangster movies, a musical, a world of would-be crooks, showgirls, dreamers. There are no adults in the cast, only children, average age about 12."

Our version features over 100 children, average age about 13<sup>1</sup>/<sub>2</sub>. There is no sensible "plot", but a series of scenes portraying the lives and characters of the inhabitants of downtown New York circa 1920. Who is Buggy? Do the "Bad Guys" get their just deserts? Does Blousey get her man? Watch closely and find out!
