		TOTAL	\$345.20
		VAT at 17.5%	\$60.41
		GRAND TOTAL	\$405.61

Delivery and Collection: We expect to be able to take over some of the Quinquere hire (items which we have in common, such as communications and lanterns). Obviously this will be arranged nearer to the Fringe and we will discuss with you which items this involves. Delivery of the items not common to with both hires would prospectively be by you on the morning of Sunday, 29th August 1993 (when the rest of the Quinquere hire is picked up?). If possible, we would like to pick up the mains switchgear and tails as well as all the semaphore units, cable and controller on Friday, 27th or Saturday, 28th August. We would also like our hire collected from Broughton High School after the run of the show, on Sunday, 5th September 1993 (time to be arranged).

**Four 63A single phase outlets are required from the 125A 3 phase supply which is terminated in a switchbox; *not in a socket* (this is probably the same as was required by Quinquere last year)
